

Standard Operating Procedures for the Entry Gates located at Oakridge Mountain Community (OMC)

- Gates are operated with a code key pad or remote control.
- Remote controls are available and for purchase at a cost of \$50 each for all residents and lot owners of OMC.
- Quarterly gate codes will be provided to each resident/lot owner with a supplied email.
- Residents and lot owners must supply a working email to the OMC Secretary to receive the current gate code.
- Residents/lot owners are reminded this security code is for residents/lot owners only and not to be shared to anyone. (an exception is if the visit is from immediate family only, the code can be given)
- No resident or lot owner is ever denied access to Oakridge Mountain Community and will always be able to use the quarterly gate code provided to them.
- If a resident /lot owner has a special request to have the gates remain open for special events they are to contact Rick George. (contact info is on the OMC web site)
- OMC has many services entering the community on a daily basis and those companies are already provided with their own security code. (examples are ETC, Ga. Power Co., Parcel Delivery, US mail, Trash Co, pest control, propane delivery, Police, Fire Dept., etc.)
- If at any time there is a one-time service not in the code system, arrangements will be made to have the company enter the community and you can contact Rick George to make the arrangements.
